PEAK

OF CUT PROTECTION

STRONGEST. TOUGHEST. HARDEST.

STRONGEST. TOUGHEST. HARDEST.

NEXT GENERATION

MAXIMUM PROTECTION

PolyKor™ Xrystal™ is an engineered yarn that represents the next generation in maximum cut protection and comfort. It is a blend of high-modulus polyethylene and mineral-based fibers. These mineral-based fibers have a similar chemical composition to glass, but are inherently better in terms of strength, heat and oxidation resistance as well as compression and shear.

Continuous fiber is produced through igneous rock melt extrusion creating one of the world's strongest, toughest and hardest fibers.

◀ **16-X310**
