PERSONAL PROTECTIVE GEAR

## MEDIUM DUTY HI-VIZ™ GLOVES (97-013)

### >>HI-VIZ 97-013

#### IDEAL FOR:\*

- Tasks that require superior visibility in low-light
- Cutting/Working with machinery that requires an enhanced level of cut protection
- Handling abrasive or rugged materials
- Maintenance/Repair
- Carpentry
- Assembly
- Heavy equipment operation
- Digging/Trenchwork
- General material handling

\*While these are the most commonly noted tasks, gloves are not limited to them.

## HIGH-VISIBILITY WITH THE ENHANCED PROTECTION NEEDED IN MORE RUGGED ENVIRONMENTS

Visibility is a top priority on dangerous jobsites. It can help avoid injuries and save lives. ActivArmr® 97-013 MD Hi-Viz gloves are specially designed with a highly reflective back to keep workers safe in low-visibility and dark environments. And they're engineered to the core with the industry-leading combination of high-tech Techcor® hand protection plus all-day comfort and wet/dry grip that meets the demands of the job.

#### ADVANTAGES

- Increases worker safety in low-visibility and dark conditions
- Techcor® liner provides enhanced cut and abrasion protection
- Tactility/Dexterity, complete intricate tasks more efficiently
- Excellent wet and dry grip to prevent injury from slippage
- Superior all-day comfort reduces hand fatigue
- Fabric more breathable than leather, keeping hands dry and comfortable

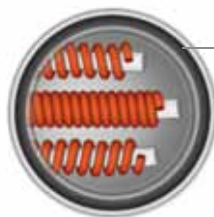

ActivArmr Personal Protective Gear from Ansell is engineered to protect personnel operating under real-world extremes. In mining, railway or road work, construction and around heavy machinery, work crews face a high risk of injury and fatality resulting from low-visibility or low-light conditions. The increased reflective visibility of ActivArmr® 97-013 GP Hi-Viz gloves, combined with medium-duty cut/abrasion protection, can help mitigate the risk of injury in these environments and help workers do their jobs better.
